Commercial Flood Light with 150 Watt High Pressure Sodium and Slip-Fitter Bracket. Part #: 150-HPS-MFL-SF

Product Description: This rugged commercial outdoor flood light includes a 150 watt high pressure sodium lamp with a quad-tap ballast (120, 208, 240 and 277 Volt). 480 volt option is available with a surcharge. This fixture is classified as a full cut-off luminaire if mounted parallel to the ground (0 degree horizontal angle).

Housing: The housing is made of die-cast aluminum and has a hinged door frame for easy maintenance. 4 screws affix the lens frame assembly to the housing. The lens is made of heat and impact resistant tempered glass. ½" coin plugs are provided for conduit and photocell installation. This fixture includes a slip-fitter (also called knuckle-mount) bracket which allows installation on 2-3/8" diameter posts. This slip-fitter bracket allows both vertical and horizontal angle adjustments. Vertical adjustments can be made from 0-90 degrees. Horizontal angle adjustments are unlimited since the fixture can be rotated on the post before the set-screws are tightened.

Socket: Porcelain 5KV Pulse Rated Mogul Base with Nickel Plated Screw Shell.

Photocell: Field-installed photocell option is available. Please choose the voltage for the photo-cell when ordering. We recommend that this fixture and its optional photo-cell are installed by a licensed electrician.

This fixture is UL listed for wet locations
EPA = 2.27 square feet
Fixture weight is 37 lbs.
