PRODUCT DESCRIPTION

**Pole Shaft:** Shaft and arms will be constructed of seamless extruded tube of 6063 aluminum alloy per the requirements of ASTM B221. The shaft assembly is full-length heat treated after base weld to produce a T6 temper.

**Handhole:** A reinforced handhole with grounding provision is provided at 18 inches from the base end of the pole assembly. Each handhole includes a cover and the attachment hardware.

**Base & Bolt Covers:** A 4-bolt cast aluminum base flange of alloy 356-T6 with aluminum bolt covers and stainless steel hex head attaching screws.

**Anchor Bolts:** A set of 4 galvanized steel anchor bolts is provided with each pole assembly. Each bolt includes 2 nuts and 2 washers. A portion of the anchor bolt is threaded for securing and leveling the pole with the provided nuts and washers. An actual size paper anchor bolt template is provided.

**Finish Options:** The standard finish is natural aluminum. Our poles are also available with a commercial grade, powder coat finish for an additional charge. Colors include dark bronze, black, gray, green and white; however, other custom color options are also available.

**Other Options:** The following options are available: Custom color, custom pole height, additional handholes, electrical outlet, vibration damper, custom base plate dimensions. Please consult one of our light pole experts for details.
