LED High Bay. Equivalent to 250 watt HID or 4 Lamp T8. 11,000 Delivered Lumens. Part #: 510053

Features:
- Full body construction (white finish)
- Access plate on back of the fixture for quick and easy wiring
- Easy access to lens through end of fixture
- Up to 79% lumen maintenance at 60,000 hours
- Driver standard with 0-10v dimming
- Wide distribution reflector
- Suitable for ambient temperatures from -40°C to 50°C (-40°F to 122°F)*.

Benefits:
- Energy Saving compared to HID systems and fluorescent systems
- Exceptional color rendering
- High system efficacy up to 111 Lm/W
- Long LED Life

Technical Specifications:
- Lumens: 10,939
- Input Watts: 105
- Lumens/Watt: 104
- CCT/CRI: 5000K/85
- Suggested Fluorescent Replacement: 4-Lamp T8
- Suggested HID Replacement: 250
- TM-21 Lumen Maintenance (60,000 hrs): >79%
- Estimated L70 (hours): 94,000
