60 Foot 12 Inch Round Tapered Steel Light Pole - 11 gauge - Part #: 60S12RT125

A Shaft Length: 60 ft
B Butt Diameter: 12 in
C Top Diameter: 3.84 in
D Gauge: 11 in
E Handhole Frame: 4 x 6 in
    Bolt Size: 1.50 x 60 in
    Bolt Circle: 16.00 in
F Bolt Projection: 4.87 in

- Removable Pole Cap With Stainless Steel Hardware
- Drilling Per Customer Specifications (Optional Welded Tenon Available)
- Tenon Per Customer Specifications
  - 3/16" Steel Adapter Plate
  - Optional Tenon Detail

- Handhole Cover, 3" x 5"
  - Radius Corners To Match Frame
  - Steel Ground Lug, Tapped 1/2"-13NC
  - Steel Slotted Pan Head Machine Screw
  - Steel Back Bar

- "B" Butt Dia. x "A" Top Dia.
- x "D" Gauge Steel Pole,
  - ASTM A595, Grade A
  - Uniform Taper (0.14" per ft)

- Reinforced Handhole Frame
  - With 1/2"-13NC Ground Lug
  - (See Table And Details)

- (4) Galvanized Steel Anchor Bolts,
  - See Table For Details

- 2 Pc. Base Cover With Stainless Steel Hardware

- Base Plate With Slotted Holes

Notes: 1) All Material Shall Be Weldable—Grade, Hot—Rolled, Commercial Quality Carbon Steel Tubing.
2) Base Plate and Handhole Material Shall Conform to ASTM A36
3) All Welds Shall Conform To AWS D1.1 Using E70xx Electrodes.
4) Calculations Based on 25 Year Mean Recurrence Interval With a Maximum Luminaire Weight Of 150 lbs.

Maximum EPA
70: 92.2
80: 15.5
90: 12.5
100: 8.8
120: 8.8
