LPL24 Value Series - Panel Light

---

**Product Description:**

GE Lumination™ LPL Series Recessed LED Luminaires are a value product for commercial ceilings providing uniformity, efficiency and reduced glare for T-grid ceiling applications. For the premium reveal® TriGain™ Architectural flat panel design, please see details for the LET series. The LPL lumen maintenance of greater than L70 at 50,000 hours operation, allows for lower maintenance costs. It is suitable for indoor general lighting for both new construction and retrofit when luminaire’s are being replaced. The uniform light across the diffuser offers a distinctive, better look than traditional LED “two strip troffers”. End users can see the difference and enjoy the fresh new look of an LED luminaire.
